## Arts Education Programs 2021 COVID-19 Screening

Child's Name: \_\_\_\_\_

Date: \_\_\_\_\_

Parent/Guardian's Name: \_\_\_\_\_

Completed by: \_\_\_\_\_

**1. In the last 14 days, has the child or anyone they live with travelled outside of Canada?** If exempt from quarantine requirements (for example, an essential worker who crosses the Canada-US border regularly for work), select "No."  Yes  No

**2. Has a doctor, health care provider, or public health unit told you that the child should currently be isolating (staying at home)?** This can be because of an outbreak or contact tracing.  Yes  No

**3. In the last 14 days, has the child been identified as a "close contact" of someone who currently has COVID-19?**  Yes  No

**4. In the last 14 days, has the child received a COVID Alert exposure notification on their cell phone?** If they already went for a test and got a negative result, select "No."  Yes  No

**5. Is the child currently experiencing any of these symptoms?**

Choose any/all that are new, worsening, and not related to other known causes or conditions they already have.

**Fever and/or chills** Temperature of 37.8° Celsius/100° Fahrenheit or higher  Yes  No

**Cough or barking cough (croup)** Continuous, more than usual, making a whistling noise when breathing (not related to asthma, post-infectious reactive airways, or other known causes or conditions they already have)  Yes  No

**Shortness of breath** Out of breath, unable to breathe deeply (not related to asthma or other known causes or conditions they already have)  Yes  No

**Decrease or loss of taste or smell** Not related to seasonal allergies, neurological disorders, or other known causes or conditions they already have  Yes  No

**Sore throat or difficulty swallowing** Painful swallowing, not related to seasonal allergies, acid reflux, or other known causes or conditions they already have  Yes  No

**Runny or stuffy/congested nose** Not related to seasonal allergies, being outside in cold weather, or other known causes or conditions they already have  Yes  No

**Headache** Unusual, long-lasting (not related to tension-type headaches, chronic migraines, or other known causes or conditions they already have)  Yes  No

**Nausea, vomiting and/or diarrhea** Not related to irritable bowel syndrome, anxiety, menstrual cramps, or other known causes or conditions they already have  Yes  No

**Extreme tiredness or muscle aches** Unusual, fatigue, lack of energy, poor feeding in infants (not related to depression, insomnia, thyroid dysfunction, sudden injury, or other known causes or conditions they already have)  Yes  No

**6. Is someone that the child lives with currently experiencing any new COVID-19 symptoms and/or waiting for test results after experiencing symptoms?**  Yes  No

### Results of Screening Questions

**If the parent/guardian answered “YES” to ANY of the questions, the child is not allowed to attend programs. Refer to the following to advise them as to their best course of action.**

If you answered “YES” to question 1, follow the advice of public health.

- The child must self-isolate (stay home) for 14 days and not leave except to get tested or for a medical emergency.
- If they develop symptoms or test positive, contact your local public health unit or doctor/health care provider for more advice.
- The child can return to the program after they are cleared by your local public health unit.
- Siblings or other people in your household must self-isolate (stay home) for 14 days.

If you answered “YES” to question 2 the child must self-isolate (stay home) and not leave except for a medical emergency.

- Follow the advice of public health. The child can return to the program after they are cleared by your local public health unit.
- If they develop symptoms, contact your local public health unit or doctor/health care provider for more advice.
- If you live in certain areas of the province, like Toronto, siblings and other people in your household must stay at home. This is because of local risk factors.
- If you live in other areas of Ontario, siblings and other people in your household can go to school, child care or work, but must not leave the home for other non-essential reasons. Ask your program for more information.

If you answered “YES” to question 3, talk with a doctor/health care provider to get advice or an assessment, including if they need a COVID-19 test.

- The child must self-isolate (stay home) for 14 days and not leave except to get tested or for a medical emergency. The child can return to the program after 14 days, even if they get a negative test result.
- If they develop symptoms or test positive, contact your local public health unit or doctor/health care provider for more advice.
- If you live in certain areas of the province, like Toronto, siblings and other people in your household must stay at home. This is because of local risk factors.
- If you live in other areas of Ontario, siblings and other people in your household can go to school, child care or work, but must not leave the home for other non-essential reasons. Ask your program for more information.

If you answered “YES” to question 4:

- The child must self-isolate (stay home) and not leave except for a medical emergency.
- Visit an assessment centre to get them a COVID-19 test.
- If they test negative (they do not have the virus), they can return to the program.
- If they test positive (they have the virus), they can return only after they are cleared by your local public health unit.
- If they develop symptoms, contact your local public health unit or doctor/health care provider for more advice.
- Siblings or other people in your household can go to school, child care or work, but must not leave the home for other, non-essential reasons until the individual who got the COVID alert tests negative, or is cleared by your local public health unit.

If you answered “YES” to question 5, talk with a doctor/health care provider to get advice or an assessment, including if the child needs a COVID-19 test.

- The child must isolate (stay home) and not leave except to get tested or for a medical emergency.
- Siblings or other people in your household must stay at home until the child showing symptoms or individual tests negative, or is cleared by your public health unit, or is diagnosed with another illness.
- Contact your program provider to let them know about this result.

If you answered “YES” to question 6, the child can return to school or child care after the individual gets a negative COVID-19 test result, or is cleared by your local public health unit, or is diagnosed with another illness.

- The child must isolate (stay home) and not leave except to get tested or for a medical emergency.
- Siblings or other people in your household must stay at home until the child showing symptoms or individual tests negative, or is cleared by your public health unit, or is diagnosed with another illness.
- Contact your program provider to let them know about this result.
